# FOLIA MICROBIOLOGICA

Vol. XVII - 1972

UNIVERSITY OF HAWAII LIBRARY

LIBRARY USE ONLY

ACADEMIA SCIENTIARUM BOHEMOSLOVACA

CONTENTS

Baldrián J. see Beran K. . . . . 322
Beneš J. see Spížek J. . . . . 143
Beran K., Holan Z., Baldrián J.: The Chitin-Glucan Complex in *Saccharomyces cerevisiae*. I. IR and X-Ray Observations . . . . 322
Beran K. see Hromádka L. . . . . 513
Bezděk M., Soška J.: Sex-determined Chemotaxis in *Salmonella typhimurium* LT2 . . . 366
Braná H. see Hubáček J. . . . . 55
Braná H. see Lipavská H. . . . . 331
Čáslavská J. see Hubáček J. . . . . 55
Čáslavská J., Kodešová J., Horáková S.: Effect of Prolonged Cultivation in a Chemostat under Nitrogen Limitation on the Morphology and Ultrastructure of *Bacillus subtilis* . . . . . 126
Čáslavská J. see Chaloupka J. . . . . 132
Das Arati: Specific Effects of Mutagens on *Aspergilus niger* Producing Citric Acid. . . 248
Dobišová M., Hirsch I., Vondrejs V.: Death and Lysis of *Escherichia coli* 15 TAU Cells after Pulse-Interrupted Thymine Starvation 39
Drobník J. see Kubelková A. . . . . 184
Dubanská H. see Procházka O. . . 105, 232, 300
Ezepchuk Yu. V. see Vertiev Yu. V. . . . . 269
Fučík V., Zadražil S., Jurovčík M., Šormová Z.: Mechanism of Resistance to 5-Azacytidine in *Bacillus subtilis*. I. Isolation and some Properties of Mutants Resistant to 5-Azacytidine and 5-Aza-2'-deoxycytidine. . . . . 517
Galzy P. see Chassang A. . . . . 241
Gláz E. T., Machay T.: Horse Erythrocyte Factor Enhancing Sulphonamide Activity. I. Partial Purification and Data on the Mode of Action . . . . . 88
Hirsch I. see Dobišová M. . . . . 39
Holan Z. see Beran K. . . . . 322
Holan Z. see Hromádka L. . . . . 513
Horáková S. see Čáslavská J. . . . . 126
Hromádka L., Beran K., Řičica J., Holan Z.: Automated Sampling during Continuous Cultivation . . . . . 513
Hronovský V. see Procházka O. . . . . 105
Hubáček J., Braná H., König J., Čáslavská J.: Mutation Affecting Normal Colony Formation in *Escherichia coli* K 12 . . . . . 55
Humphrey A. E. see Prokop A. . . . . 437
Chaloupka J., Lhotová H., Čáslavská J.: Protein Turnover in Asporogenic *Bacillus megaterium* KM under Limited Nitrogen Supply 132
Chaloupka J. see Nguyen Huu Chan 281, 347
Chaloupka J., Strnadová M.: Turnover of Murein in a Diaminopimelic Acid Dependent Mutant of *E. coli* . . . . . 446
Chassang A., Roger M., Vezinhet F., Galzy P.: Variation of the Lipid Content of Yeast Cells during Sporulation . . . . . 241
Islam M. S., Weijer J.: Development of Fertile Fruit Bodies in a Single-Strain Culture of *Neurospora crassa* . . . . . 316
Janda S., Kotyk A.: Some Features of Carbohydrate Metabolism in *Rhodotorula glutinis* 461
Janeček J. see Spížek J. . . . . 143
Joseph R. see Shanthamma M. S. . . . . 81
Jurovčík M. see Fučík V. . . . . 517
Kaushik B. D., Venkataraman G. S.: Induced Variations in Microorganisms. I. The Mutagenic Effect of Ultraviolet Light on *Rhizobium trifolii* . . . . . 381
Kaushik B. D., Venkataraman G. S.: Induced Variations in Microorganisms. II. The Mutagenic Effect of Ethyl Methanesulfonate on *Rhizobium trifolii* . . . . . 389
Kaushik B. D., Venkataraman G. S.: Induced Variations in Microorganisms. III. Genetic Transfer between Intact Cells of the Mutants of *Rhizobium trifolii* . . . . . 393
Klepalová J. see Miler I. . . . . 291
Klepalová J. see Štepánková R. . . . . 505
Knotková A., Kotyk A.: Amino Acid Transport in *Rhodotorula glutinis* . . . . . 261
Kodešová J. see Čáslavská J. . . . . 126
Kohoutová M. see Lipavská H. . . . . 331
Koníček J.: Synchronized Growth of *Mycobacterium phlei* . . . . . 192
König J. see Hubáček J. . . . . 55
Kotyk A. see Knotková A. . . . . 251
Kotyk A. see Saiyid N. H. . . . . 261
Kotyk A. see Janda S. . . . . 461
Kotyk A., Říhová L.: Energy Requirement for Amino Acid Uptake in *Saccharomyces cerevisiae* . . . . . 353
Kotyk A., Říhová L.: Uptake of Amino Acids by Actidione-Treated Yeast Cells. IV. Interaction with Sugars . . . . . 357
Kozová J. see Řeháček Z. . . . . 308
Krekulová A. see Kubelková A. . . . . 184
Kruml J. see Miler I. . . . . 291
Kruml J. see Štěpánková R. . . . . 505
Krzeminski Z., Mikucki J., Szarapinska-Kwaszewska J.: Endogenous Metabolism of *Staphylococcus aureus* . . . . . 46
Kubelková A., Krekulová A., Rešlová S., Drobník J.: The Effect of Bacteriophage Induction on the Repair Ability of *Escherichia coli* 15 TAU . . . . . 184
Lhotová H. see Chaloupka J. . . . . 132
Lipavská H., Braná H., Kohoutová M.: A Special Deoxyribonuclease Activity Accompanying Competence-Inducing Activity 331
